1. Alumni meet on 26th January 2023

The association plays a pivotal role in fostering a strong connection between the college, its current students, and alumni. Regular meetings serve as a platform for members to strategize and discuss innovative ways to support present students in their academic and professional journey. The managing committee, spearheading the association's initiatives, diligently organizes numerous programs throughout the year.

These programs, ranging from seminars to presentations, are designed to keep the college community abreast of contemporary topics, trends, and employment opportunities. The association serves as a bridge between academia and industry, facilitating a seamless exchange of knowledge and information.

One notable aspect of the association's efforts is the involvement of alumni who generously contribute to the college's growth. Alumni, well-established in their respective fields, visit the college to share their experiences and insights. This interaction provides invaluable guidance to current students, helping them navigate the landscape of higher learning and employment.

In essence, the association creates a vibrant ecosystem within the college, where the synergy between students, alumni, and the managing committee fosters a culture of continuous learning, mentorship, and professional development. Through these concerted efforts, the association becomes a catalyst for the holistic development of the college community.
