WEBINAR ON "COOPERATIVES FOR CLIMATE ACTION" (4TH JULY 2020)

HENRY BAKER COLLEGE, MELUKAVU
DEPARTMENT OF COMMERCE

ALL ABOUT INTERNATIONAL DAY OF COOPERATIVES AND CLIMATE ACTION

A VERY BRIEF REPORT

SESSION 1: RATIONALE OF THE WEBINAR

As climate crisis is a global concern, the International Cooperative Alliance (ICA) set its theme as 'Cooperatives for Climate Action' on this year's International Day of Cooperatives (on 3 July 2020). Cooperatives are organizations that are owned and run by the community, and for the community. With the rise of the industrial revolution, changes to the economy had a negative impact on many working-class individuals in societies across the world, and in this context, some individuals were getting richer, others were seeing their lowest point financially. The industrial revolution also brought about some of the biggest environmental changes. In fact, it contributed to many of the most significant causes of the climate crisis – like the clearing of natural spaces for business development, the production of excessive carbon emissions, and the overuse of natural resources.

Major Observations of Resource Person:

- Cooperatives could pool the resources of their members and thereby the members could remain employed
- The individual members of cooperatives weren't as aware of the imminent climate crisis or the link between global warming and human activity while running a business undertaking.
- At present, cooperatives give due weightage to sustainability at the core of cooperative trade.
- Our sustainable development goals like promoting local purchasing and indigenous food use were put into practice by cooperatives
- Cooperatives' community-led initiatives add to sustainable development

SESSION 2: WHY IS CLIMATE ACTION THIS YEAR'S INTERNATIONAL DAY OF COOPERATIVES THEME?

We all know about the climate crisis – which includes global warming and climate change, however, how is the climate crisis and the work done by cooperatives linked? Unsustainable business practices have been recorded as one of the biggest causes of climate change throughout history.

SESSION 3: HOW BUSINESSES CONTRIBUTE TO THE CLIMATE CRISIS

According to Prof. Satheesan, “corporate undertaking operating in different sectors – like agriculture, retail, housing, education, and social services – operate within Earth’s atmosphere. These organizations have an impact on the environment, economy, and society in the areas where they have been established and operated. However, why do these undertakings come into the spotlight when it comes to the global climate action plan? Well, a study done in 2016-2017 found that almost two-thirds of the industrial carbon emissions produced between 1880 and 2010 came from just 90 companies. And, the emissions from these 90 companies have added to the climate crisis in significant ways.”

Here’s a look at the effect that these organizations had on the planet, as of 2017

- More than 50% of the rise in atmospheric carbon dioxide levels can be traced back to these 90 companies.
- This addition to atmospheric carbon dioxide levels is thought to be responsible for 42–50% of the rise in global surface temperatures.
- As a result of these increased global temperatures, these companies have contributed to a 26–32% rise in the global sea level.

No. of Participants: 114 (out of this 7 were teachers)

Webinar Outcome:

This webinar could convince the participants how businesses can and have been contributing to the climate crisis in a big way. But, it also shows that excessive emissions come from a minority within the business sector, which means that not all businesses are going about business in quite the same way.

INTERNATIONAL WEBINAR ON "BUSINESS CONTINUITY MANAGEMENT DURING THE AGE OF COVID 19" CONDUCTED ON 25 JULY 2020

Need for a Business Continuity Plan – A Pandemic Plan:

If sudden external disruption hits, for instance, Covid 19 at present, business stability needs to be protected. All organizations, irrespective of size, face the risk of business disruption preventing their ability to trade. At these times of stress, one needs to be able to turn to robust business continuity management policies and procedures, like Covid 19 recovery plan. It's vital to have reliable business continuity planning (BCP) in

place, so one can respond in a calm and pre-planned way. This will protect one's business stability, so one can recover quickly and effectively.

This webinar on business continuity planning (BCP) mainly covered two important aspects:

- A range of BCP solutions, including online support and consulting services
- Developing disaster recovery and control strategies in the event of Covid 19

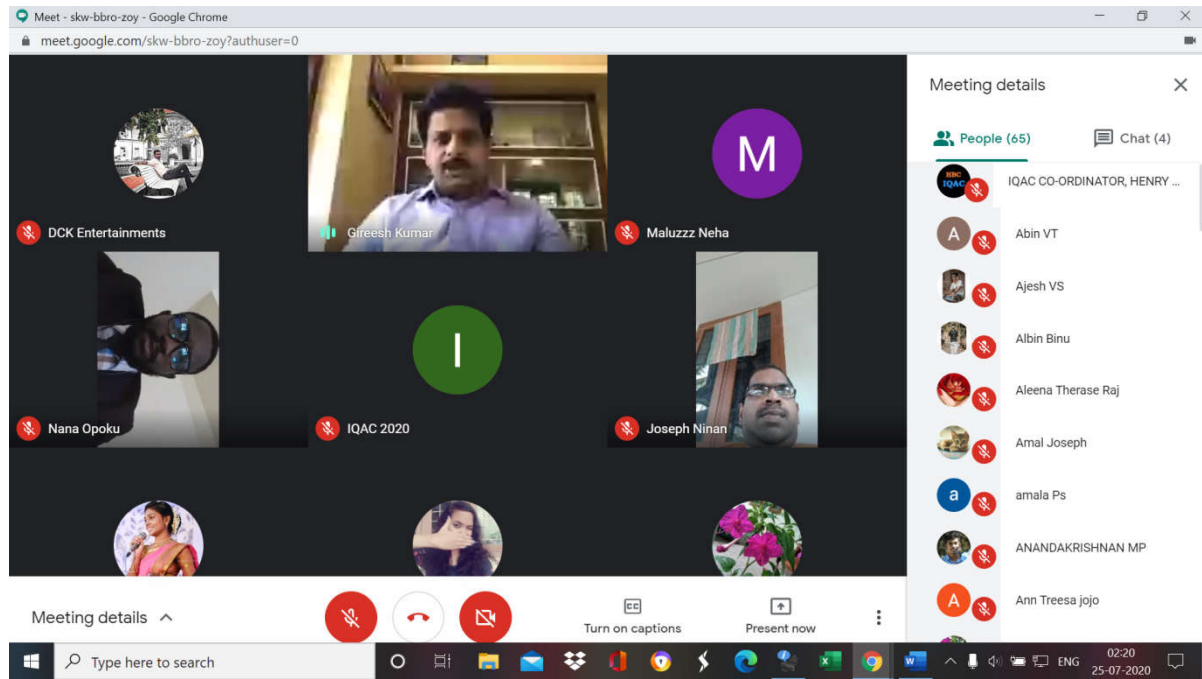

Program Outcome

For organizations that continued to operate throughout the pandemic, it is interesting to see whether having a business continuity plan (BCP) actually helped them in the response to the crisis, however, the participants of this webinar could understand that effective business continuity management can ease some of the pressures and decisions the business undertakings face if the worst should happen in due course of this Covid 19 pandemic. It will also provide an extra competitive edge and peace of mind, proving to customers and partners that the undertakings are prepared for the unexpected. From the presentation of Mr. Danquah, the participants could understand that more than 21% of the corporate undertakings don't have a pandemic plan and process in place and many organizations have experienced steep learning curves in working in 'contingency mode' and learned important lessons on resilience.

OUR FINAL YEAR UG & PG STUDENTS ENROLL IN NATIONAL CAREER SERVICE, MINISTRY OF LABOUR, GOVERNMENT OF INDIA

National Career Service is a Five Year Mission Mode Project launched by the Hon'ble Prime Minister on 20th July 2015. The project has been implemented by the Directorate General of Employment, Ministry of Labour & Employment. National Career Service (NCS) is a one-stop solution that provides a wide array of employment and career-related services to the citizens of India. It works towards bridging the gap between job seekers and employers, candidates seeking training and career guidance, agencies providing training and career counseling.

The NCS project reaches out to the people of our country through its three essential pillars i.e. a well-designed ICT-based portal which is an NCS portal, Countrywide set up of Model Career Centers, and interlinkage with all the states through employment exchanges. The digital centralized portal provides a wide range of career-related services including job search, job matching, rich career content, career counseling, information on Job Fairs, services of local service providers like drivers, plumbers, etc. for households, and various other services. This portal facilitates the registration of Job Seekers, Employers, Skill Providers, Career Counsellors, Local Service Providers (LSP's), Career Centers, Placement Organisations, Households (for availing the services of the LSP's), and Government Departments.

The portal is also supported by a multi-lingual call center where the users can call the NCS Toll Free Number 1800-425-1514 for any support. The services of the call center are available from Tuesday to Sunday from 8:00 AM to 8:00 PM in seven different languages i.e Hindi, English, Bengali, Kannada, Malayalam, Tamil, and Telugu. The services on the NCS Portal are delivered through multiple channels like

Computers/Mobile browsers, Common Service Centers (1 lakh + centers), Career Centers (900+ Employment Exchanges, 100+ Model Career Centers), and Post Offices. NCS does not charge any fees for registration on the portal and its services.

How employment opportunities are opened before our students through NCS Portal is depicted in the following picture:

Department of English

Introduction

Due to the Covid-19 pandemic most of the activities other than teaching had to be curtailed as it was impossible for the students to be present in the college as usual. The students of the First, Second and Final years attended classes for the brief spell of a fortnight each due to the prevalent restrictions. Moreover, the first Semester classes began very late, in November 2020.

A Word a Day

This unique programme of the Department of English for enriching the language skills could be conducted this year only for brief intermittent stints while the second year and final year students had contact classes in the college. As usual, the III Semester B. A. English students were in charge of this programme, displaying a new word and its phonetic transcription, every day. This year the Final year students too carried out this task while they were present in the college.

Student Performance

The following students made a brilliant performance in the University Examinations of various semesters. Merit Day could not be conducted in this year due to restrictions and so they could only be appreciated online.

1. Laya Maria Lal (407/500, 8.4 A) and Amina Kabeer (407/500, 8.2 A) are the Toppers of the First Semester B. A. English Degree Examination
2. The toppers of the II Semester B. A. Degree Examination are Amina Kabeer (383/500, 7.6 A) and Aiswarya K R (366/500, 7.60 A)
3. Suryadevi M Madhu (408/500, 8.2 A) and Annie Roy (334/500, 6.60 B+) are the Toppers of Third Semester B.A. English Degree Examination.
4. The toppers of the IV Semester B. A. Degree Examination are Suryadevi M Madhu (408/500, 8.2 A) and Annie Roy (377/500, 7.60 A)
5. Suryadevi M Madhu (428/500, 8.47 A) and Tinoy Elvis (408/500, 8.16 A), are the Toppers of the Fifth Semester B.A. English Degree Examination.

Peer Teaching

For the slow learners of for the II semester B. A. English Online Peer Teaching was organised. The classes were taken online by the class Topper Amina Kabeer. The department would like to record our gratitude to Amina for her sincere efforts in helping her classmates.

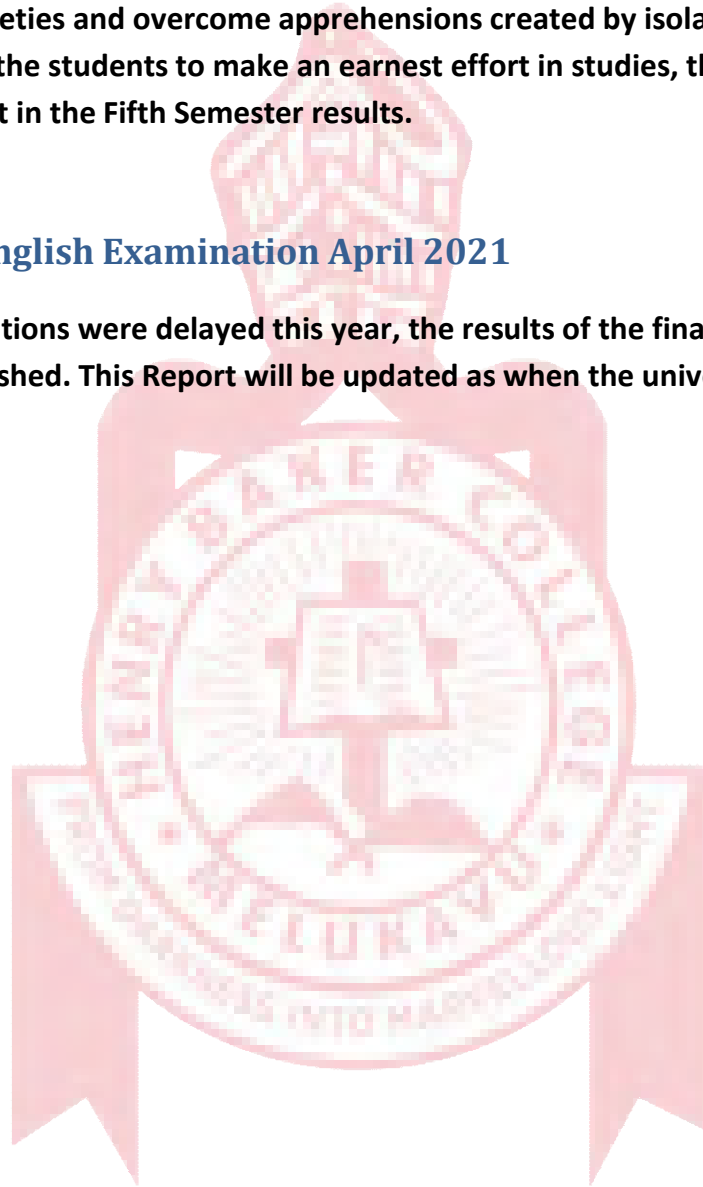

Academic Monitoring by Class Wardens

To enable the students who were suddenly plunged into the unprecedented system of online classes the Class Wardens took special care to communicate with them periodically. The class wardens talked to them over the phone and inquired about the problems they face in the new mode of learning. It also helped the young students to manage their anxieties and overcome apprehensions created by isolation. This seems to have encouraged the students to make an earnest effort in studies, the positive impact of which is evident in the Fifth Semester results.

Results of BA English Examination April 2021

Since the examinations were delayed this year, the results of the final year students are yet to be published. This Report will be updated as when the university publishes results

Women are the real architects of society...

International Women's Day was celebrated with much gusto in our college. On the occasion various events were conducted by the Cell in order to acknowledge, appreciate and honour the most powerful gender with a plethora of attributes.

A grand celebration was organized by the Women Cell to mark the International Women's Day on March 8, 2021, in the seminar hall. The programme started with a silent prayer. The inaugural note was delivered by our Principal Dr. G. S. Gireesh Kumar. He accented the importance of the day by highlighting the necessity of women empowerment in the current scenario. He emphasised the fact that girl students should be career conscious and economically independent. They must raise their voice against all sorts of assaults against them. Women cell coordinator, Elizabeth Joseph delivered the welcome speech and pointed out the need to honour and respect women for a gender-balanced future. Prior to Women's Day the Cell conducted lots of competitions and Sultana Arshid of I M. A. History won the second prize in the PowerPoint

competition. She was selected to present the PPT on the occasion. The limelight was on the tireless activities of women who worked extraordinarily in their fields. A short film entitled 'Women's Day' was displayed in the seminar hall. The short film explored various nuances of unequal relationships where the women frequently lose identity to keep peace in a marriage. It created a sensation that a woman is powerful and should be aware of her potential by taking charge of her life instead of being a doormat. A Personality Contest was also conducted and Sultana Arshid (I M. A.) was selected as the Princess of the day. Abitha Babu (II B.A. English) and Athira Sabu (I M. A. History) were the Runner-ups of the contest. Principal Dr. G. S. Gireesh Kumar gave away the prizes of the online contests. Candies were also distributed for refreshment.
