About NPTEL

The National Programme on Technology Enhanced Learning (NPTEL) is a project funded by the Ministry of Human Resources Development, Govt. of India and carried out by seven IITs (Bombay, Delhi, Guwahati, Kanpur, Kharagpur, Madras, and Roorkee) along with IISc, Bangalore. Since 2014 NPTEL has been focusing on offering online courses for certification, with a unique, in person - at center, proctored final exam currently conducted in 160+ cities across India, that lends strong credibility to this process.

HBC NPTEL SWAYAM LOCAL CHAPTER STATISTICS SINCE JAN-JUNE 2020 SEMESTER

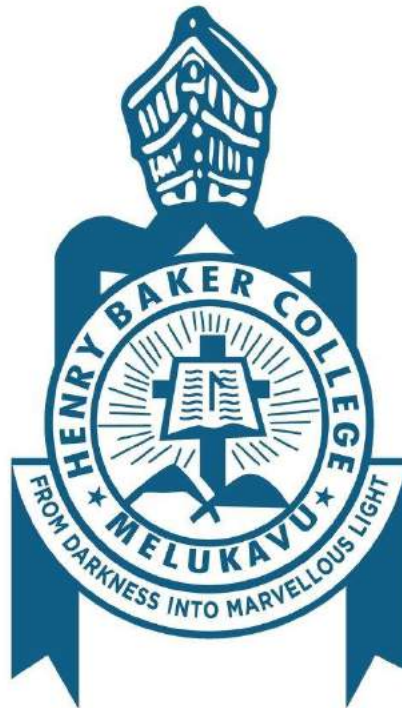

UGC and AICTE have approved that colleges can take these MOOC courses for credit in their Gazette notification of August 2016. These courses are being used by students to avail internship opportunities

About 15-20% of the total exam certified participants are faculty members from various colleges and hence these programmes are helping in faculty development and improvement. The advanced courses are recognized by AICTE as FDP.

A Massive Open Online Course (MOOC) is a free Web-based distance learning program that is designed for the participation of large numbers of geographically dispersed students. India's SWAYAM is the fourth largest MOOC provider in the world. One of the peculiar features that distinguish SWAYAM from other MOOC providers around the world is that if a candidate wants SWAYAM certificate he/she should register for the final proctored exam by paying a fee of Rs. 1000. SWAYAM seeks to bridge the digital divide for students who have hitherto remained unserved by the digital revolution and have not been able to join the mainstream of the knowledge economy and this learning platform is an incredible change in Indian educational system and is also the foundation stone of education for our future generations. This online platform is one of the major gateways of knowledge in addition to distance learning offered by UGC recognized Indian universities through the recognition of Distance Education Bureau. UGC has already issued the UGC (Credit Framework for online learning courses through SWAYAM) Regulation 2016 advising the Universities to identify courses where credit can be transferred on to the academic record of the students for courses done on SWAYAM. National Programme on Technology Enhanced Learning (NPTEL) is a project of MHRD initiated by seven Indian Institutes of Technology (Bombay, Delhi, Kanpur, Kharagpur, Madras, Guwahati and Roorkee) along with the Indian Institute of Science, Bangalore in 2004, to provide quality education to anyone interested in learning from the IITs. NPTEL is one of the contributors of SWAYAM. It is the largest online repository in the world of courses in engineering basic sciences, and selected humanities and social sciences subjects. NPTEL has set up SWAYAM-NPTEL chapter in colleges (with the approval of the management) which will be under the leadership of a faculty member of the college, who would be their Single Point of Contact (SPOC). The SWAYAM PRABHA is a group of 32 DTH channels devoted to telecasting high-quality educational programmes on 24x7 basis using the GSAT-15 satellite. All the courses of SWAYAM are broadcasted through these 32 DTH channels. Indian universities and National Resource Centres (NRCs) are providing ARPIT programmes to faculties in colleges and universities through SWAYAM Digital Learning Platform. In the nearest future SWAYAM will become the biggest platform for online quality education in the world surpassing Coursera, edX and FutureLearn.
