MENTORING CELL
HENRY BAKER COLLEGE, MELUKAVU
Report 2022-23

The Mentoring cell of Henry Baker College functions under the monitoring of the Principal and Mentoring cell coordinator. Mentoring is a unique method of supporting students to improve their academic performance by providing specific insights for their success. It helps the students to reinforce their varied capabilities and ensures the overall development of their personality.

During the academic year 2022-23, the Heads of the Departments allotted students to the teachers of their respective departments. The contact sessions were based on the mentees' convenience and need. The mentors collected the necessary details of the mentees and recorded in the Mentor's handbook "Jyothirgamaya." They recorded the details of each contact session in the handbook. These contact sessions are very useful to instil confidence and reinforce the mentees' sense of resilience. They identified the strengths and weaknesses of the mentees and provided proper guidance and support to them for enhancing their academic excellence. At the end of the academic year, mentors submitted the handbook with the consolidated report of the issues raised and resolved during the mentoring session.

Co-ordinator. Mentoring Cell

Dr. Ansa Andrews
